Turaco Lite

High-end DIY Home Camera Security System

Do you know what's happening at your home?

The Turaco Lite solution allows you to **protect your home or business.** It includes two Turaco IP cameras combined with the Turaco gateway. Additional cameras can be added. This unique solution stands out from the crowd, offering a **cost-effective security system**, based on our advanced "Turaco Cloud" proven technology. Using the video analytics integrated in our cloud solution, we are able to provide advanced video motion detection with near zero false alarms.
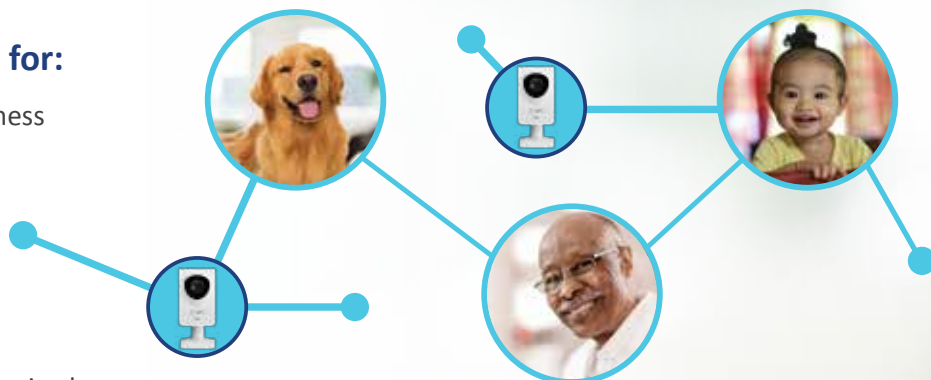

Turaco Light is a **DIY security camera system**. The new, easy-to-install system provides you with protection and peace of mind.

You control the overall system with a simple to use smartphone app; allowing arming and disarming of the security system, as well as the viewing of the camera feeds in live and recorded video.

Turaco Lite can be seamlessly upgraded to the Turaco classic solution, which provides an enhanced security, safety, home automation, and telemedicine solution.

Turaco Lite is an excellent solution for:

- Securing & monitoring your home or business
- Nanny watch
- Elderly parent monitoring
- Watching your baby
- Pet monitoring
- Minding your loved ones
- After-school alert – know when your kids arrive home
- Generating a panic alert with GPS coordinates

Add as many cameras as you need, and manage them all from one dashboard, viewable from anywhere in the world.

ARMED WITH PROTECTION

Although the system is comprised of two IP cameras, it arms and disarms like any other intrusion detection system. Turaco Lite arms you with the knowledge of what is happening at your home/office and helps protect what matters most.

PANIC BUTTON ALERTS

The smart phone app has a panic button alarm, alerting family or friends of an issue, sending your current location and audio/video in case of an emergency situation.

EASY TO USE HOME SECURITY SYSTEMS

The Turaco Lite system is easy to use as well as install. This DIY system uses an intuitive, user-friendly dashboard, allowing you to monitor activities, activate the system, share videos or images, and configure the system from one, easy-to-access location.

ANYTIME/ANYWHERE CONNECTIVITY

Access your security system and video streaming, no matter where you are in the world. Simply log in to your smart phone app and gain access to the arming and disarming capability, video monitoring, as well as the two-way intercom system.

AUDIO VIDEO INTERCOM

With our two-way intercom support, you can choose to communicate with loved ones, or just listen-in to hear what's happening and better monitor and assess situations.
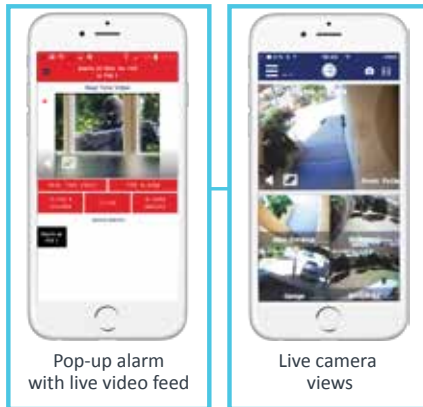

SAFE & SECURE

The system offers several features: intrusion detection protection, infrared night vision, hacker safe security with VPN tunneling, 'Keep Alive' heartbeat that alerts when your security system is not connected to the network, and assigning of personal accounts for each family member.

EASY AS 1-2-3

The DIY Security System is very simple to install. Simply Download the app and follow the installation instructions. First connect the Turaco gateway, then the wireless IP cameras - the Security System is enabled in minutes.

Turaco Lite Features:

- Use of true video analytics to provide zero false alarms
- Day/Night wireless camera with micro SD Card Slot
- H.264 video compression
- 24/7 continuous video cloud recording subscription options available
- Share video clip and snapshots of security events
- Language support
- History Log – view history of events with related video clips and snapshots
- Cost Effective

SMART CLOUD-BASED SYSTEM

Turaco Lite is cloud-based, meaning it can be accessed for real-time viewing from anywhere, anytime. The system only consumes network bandwidth when an event is triggered, at which time it sends a recording to the cloud. Notifications can be sent to multiple sources such as phone, app, mail, etc.
